Experience

Producers National Corp   **JAN 2022 – Present**
Sr. Software Developer and Configurator   Chicago, IL
🔗 https://producersnational.com/

• Manage a team of 7 engineers developing, testing, and deploying new insurance programs

• Oversee the development of APIs for insurance rating calls as well as third party report calls to enhance integration

• Lead using the SCRUM methodology and consistently improves team velocity with bi weekly retrospective meetings

• Develop application changes to rates, validations, and automations with C#, VB.net, and Python

• Develop and improve stored procedures for a 4TB database

Producers National Corp   **AUG 2020 – JAN 2022**
Software Analyst   Niles, IL
🔗 https://producersnational.com/

• Prepared rate change specifications for development and implemented rate changes in VB

• Created scripts in Python to filter and analyze error logs to create alerts for pressing issues

• Created development team and development processes so the company can develop without relying on external companies

• Implemented and maintained over 15 test systems for all developers to use to prevent overlapping on development
